

ABOUT SNAFFLE WEB DEVELOPMENT

[Snaffle](#) is a specialist web development company with more than 20 years experience building websites using a range of web-based systems and technologies.

Since 2005, Snaffle have specialised in Joomla CMS integration, and in recent years have focused particularly on responsive website design and development.

SUPPORT FOR SANE

Since 2004, Snaffle has provided ongoing support to SANE through its generous low-bono web and technical development. In recent years, Snaffle worked with SANE and other partners to build the SANE Forums platform and our new database-driven, responsive website.

Thanks to Snaffle we have now built a safe and supportive online Forum community and a dynamic, user-friendly, accessible website providing information and support to the many Australians affected by mental illness.
